

Chinese kerosene output in Mar

BEIJING(Chinaoilweb): The latest National Bureau of Statistics data show:the kerosene output in Mar was 1.14 million tons,up 16.68% from last month,and up 4.11% from last year.

The industry insider said,because the refinery increased the output rate to 3.88 in Mar,still higher than the all year output rate of 3.415,plus it is profitable to process crude oil for refinery,the government has moved up the price of product oil,so the refinery has the initiative to work,the volume of crude oil processing was continued rose by 13.9% in Mar,based on the 0.11% of Feb,the two above factor have impelled the kerosene output grow.

Mar 2009	On month (%)	On year (%)	Jan-Mar 2009	accumulated On month (%)	Output rate (%)
114.0	16.68	4.11	301.60	-0.33	3.88
